

Bicycle Safety

Why are helmets important?

What are they for?

When should you use a helmet?

What could happen to you without a helmet?

- Ride single file
- Walk your bicycle across heavy traffic at a crosswalk
- Lock your bicycle

1. Never ride your bicycle far from home.
2. Always make sure an adult knows where you are.
3. Use your hand signals for every turn.
4. Do not give a friend a ride on your bicycle. Never ride double.
5. Never leave your bicycle laying on the sidewalk, a driveway, or in front of a door.
